

UNIVERSITY OF AMSTERDAM

Faculty of Social and Behavioural Sciences

Graduate School of Child Development and Education

# Research Master Child Development and Education

## *Research Master*

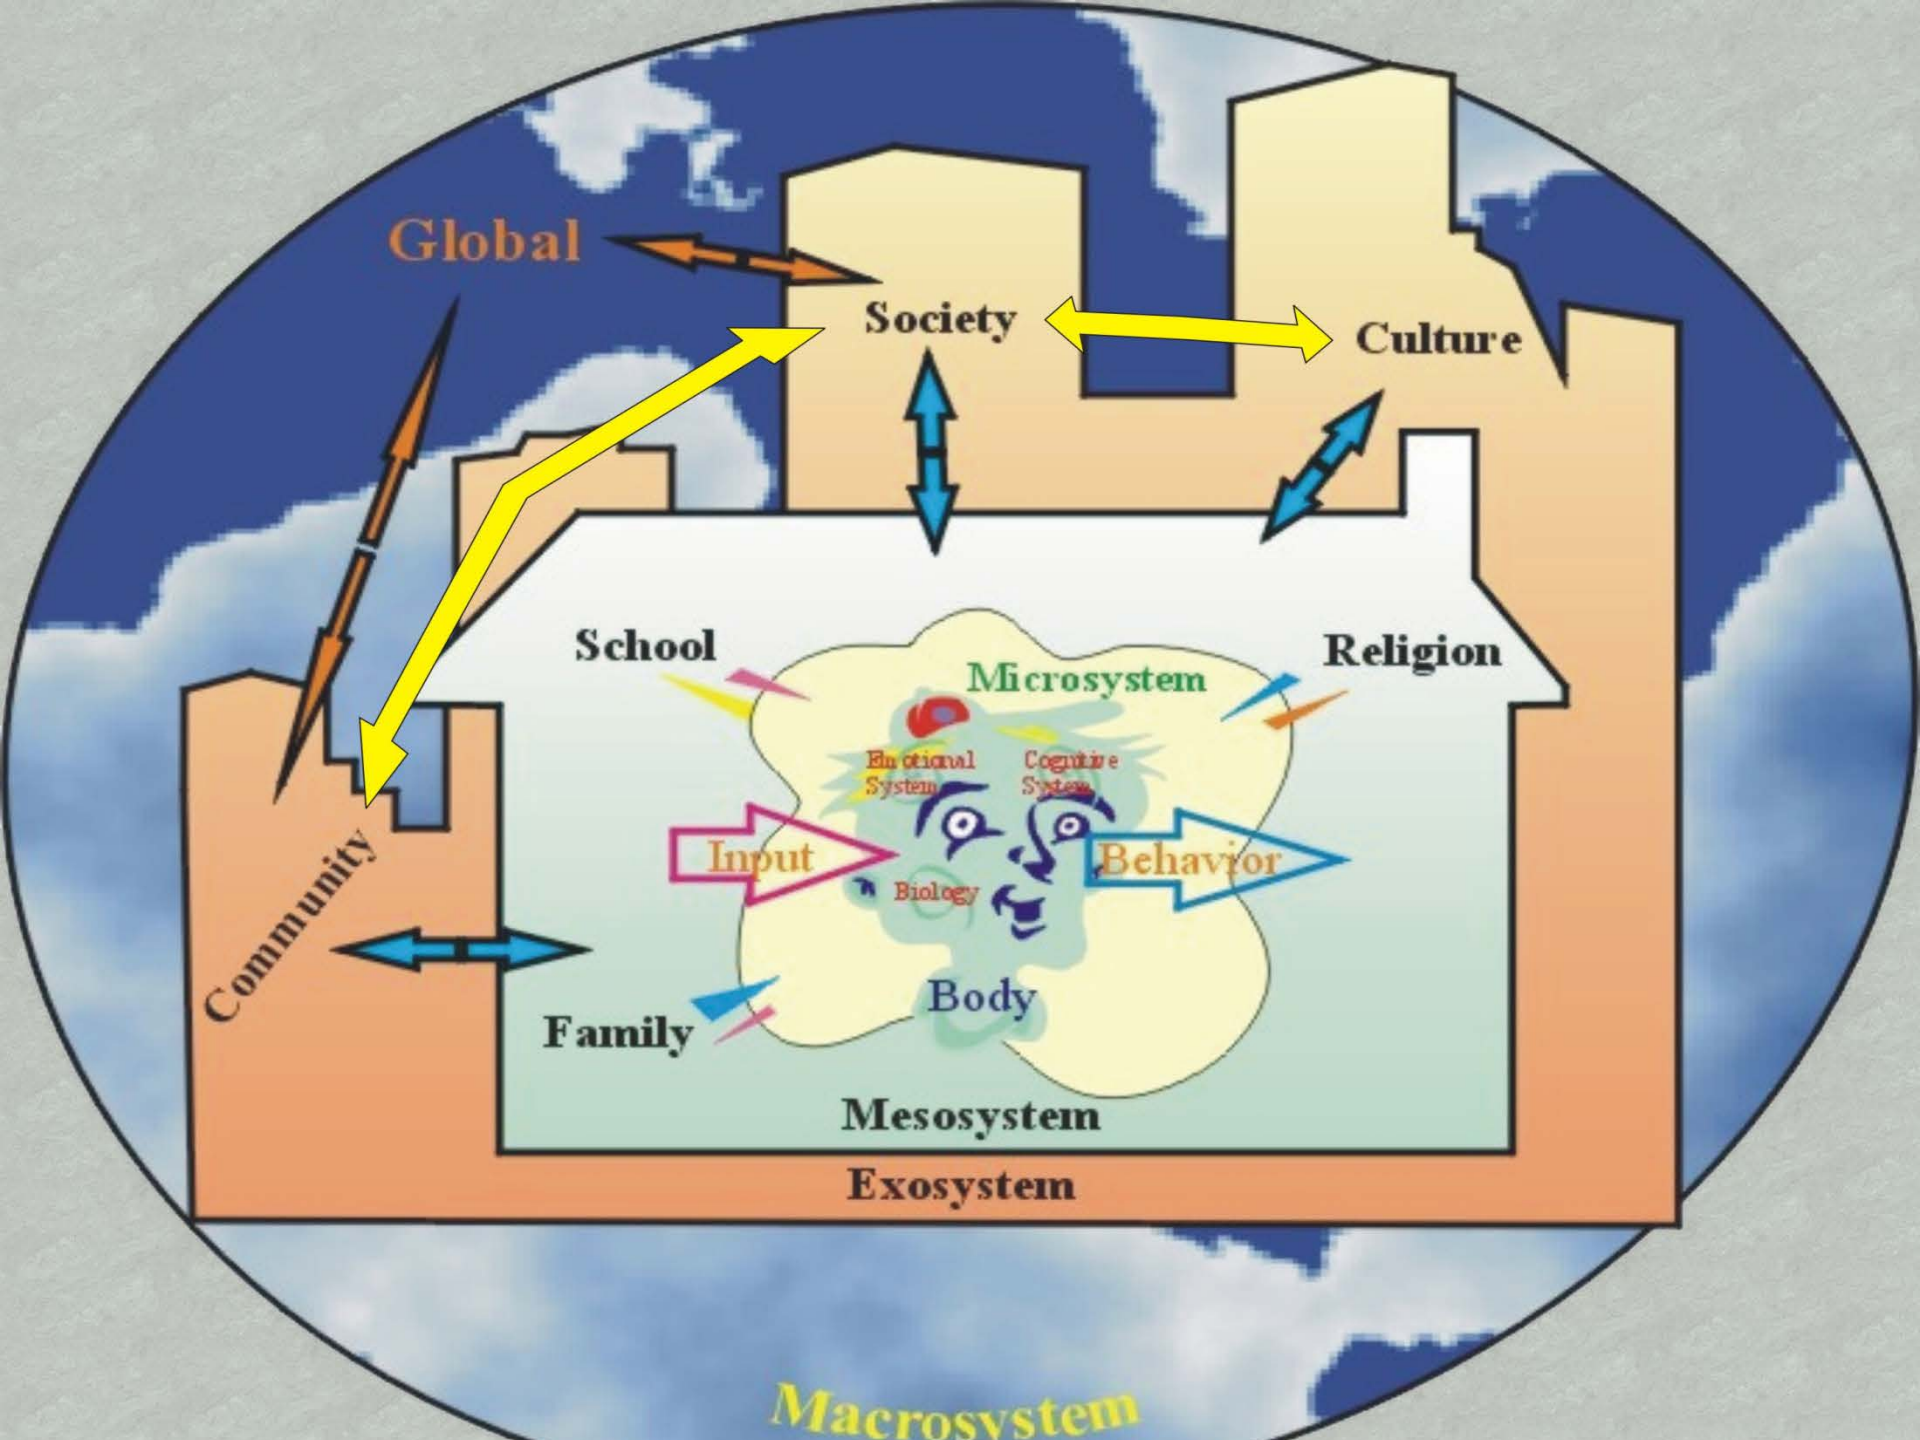

# Child Development and Education

- Content
  - Research into child development (parenting, development, family support, psychopathology)
  - Research into education (school research, learning disorders)
- Programme
  - Instruction in research
  - Practice in research
- Outlook
  - Research career
  - Academic career
- Application
  - Procedure, Admission criteria

# Research training

- Research into child development
  - Family systems
  - Developmental and parenting problems
  - Criminal behaviour of juveniles
  - Learning and social-emotional disorders
- Research into education
  - Micro-processes at school and learning
  - Critical debates in education
  - Educational innovation
  - Foundations and philosophy of education

# Two-year programme

- Instruction in research
  - Disciplinary courses
    - Domain courses
    - Special courses
  - Supporting courses
    - Methods and statistics
    - Writing and presenting skills
- Practice in research
  - Internship
  - Thesis

**REGULAR ROUTE (EDUCATION): YEAR 1**

Sept      Oct      Nov      Dec      Jan      Feb      March      April      May      June

Intervention research

Micro-processes at school OR

Critical debates in education OR

Educational innovation

Learning and social-emot. probl.

Methods and statistics in educ. research

Multilevel data-analysis

Academic skills

Research Internship

**REGULAR ROUTE (EDUCATION): YEAR 2**

Sept      Oct      Nov      Dec      Jan      Feb      March      April      May      June

Found. & Philos of Education

Micro-processes at school OR

Critical debates in education OR

Educational innovation

Learning and social-emot. probl.

Structural equation modelling

Thesis

**REGULAR ROUTE (CHILD DEVELOPMENT): YEAR 1**

Sept      Oct      Nov      Dec      Jan      Feb      March      April      May      June

Intervention research

Developm. & parenting probl. OR

Micro-processes at school

Family systems OR

Learning and social-emot. probl.

Criminal behaviour of juveniles

Methods and statistics in educ. research

Multilevel data-analysis

Academic skills

Research Internship

**REGULAR ROUTE (CHILD DEVELOPMENT): YEAR 2**

Sept      Oct      Nov      Dec      Jan      Feb      March      April      May      June

Developmental & parenting probl. OR

Micro-processes at school

Family systems OR

Learning and social-emot. probl.

Criminal behaviour of juveniles

Structural equation modelling

Thesis

CLINIAL ROUTE: YEAR 1

Sept Oct Nov Dec Jan Feb March April May June

Intervention research

Developmental & parenting probl.

Learning and social-emot. probl.

Criminal behaviour of juveniles

Methods and statistics in educ. research

Multilevel data-analysis

Academic skills

Thesis: first part

CLINICAL ROUTE: YEAR 2

Sept Oct Nov Dec Jan Feb March April May June

From Diagnostics to Treatment (Orthopedagogics / Forensic Orthopedagogics)

Family systems

Criminal behaviour of juveniles

Structural equation modelling

Learning and social-emot. probl.

Thesis: second part

Clinical internship + research assignment

# Outlook

- Research
  - Universities
  - Academic clinics: Science-practitioner
  - Outside university (e.g., commercial research)
- Academic career
  - PhD student
  - Postdoc, Researcher, Lecturer
  - Assistant Professor
  - Associate Professor
  - Full Professor

# Application

## ■ Application procedure

- Application file →  
[www.uva.nl/rmsc-cde](http://www.uva.nl/rmsc-cde)
- Interview

## Admission criteria

Bachelor degree

Strong academic record,  
writing skills

Elementary knowledge of  
methods and statistics

Active and passive proficiency  
in English

Interest, motivation, ambition  
to become researcher

# See you soon in the Research Master Child Development and Education
